**Developing:** Heroku, AWS, MongoDB, MySQL, PostgreSQL, GraphQL, Apollo, Node.js, Express, Web API, Gatsby, Bash Scripting, WooCommerce

## Profile

Technology has been an ever-present passion in my life. As a voracious learner, the business of web development has been as challenging as it has been fulfilling. The single constant throughout my career has been improvement and development of my skill sets in my current environment. My driving ambition is finding novel ways to utilize technology to simplify workflows and create efficiencies.

## Experience

**Web and Mobile Developer / Owner | Self Employed, Contract** | Solutus LLC, Mound, MN | Jan 2020 - Present

Most recent work has included React Native, ReactJS, Gatsby / ReactJS, and WordPress. All ReactJS / React Native projects have been greenfield and modern Javascript focused. GraphQL (Node based) web API with database interaction. Peer reviewed work, with a feedback loop for our PR process. Working with new and established technologies daily and finding solutions to challenging problems in a self guided, fast paced environment.

**Beer Brands Manager | Area Manager** | Bernick's, St Cloud, MN | Oct 2010 - Dec 2019

Budgeting & marketing planning with more than 20 partner businesses. Subject matter expert and key communication point. Trained and mentored over one hundred internal personnel across six divisions and external partner teams of all sizes. Facilitated triple digit growth with several partners. Division sales leading Area Manager, resulting in promotion to Brands Manager in 2016.

**Sales Representative, DSD | Sales Representative, Pre-sell** | DTM, Minneapolis, MN | Jan 2004 - Oct 2010

Key role in Monster Energy distribution rollout in MSP area and subsequent brand awareness campaign. \$1M Sales Club, Y1. \$5M Sales Club Y3. Pioneered new beer sales division starting in 2007, leading to company acquisition in 2010.

## Projects

*Production App (not my IP)* – a React Native application setup in Expo utilizing React Navigation, Apollo GraphQL, Node, PostgreSQL, Heroku and Jest. Some packages included are: expo-barcode-scanner, expo-camera, and lottie-react-native. I also developed a React SPA informative splash page. **React Native**. Release TBD, likely Winter 2022

Gray Duct Technologies - Gatsby / React site with Facebook and Google Analytics tie-in, tracking pixel, and Netlify CMS. **Gatsby / React**. <https://www.grayducttechnologies.com>

Barefaced Esthetic Studio – a Square based Weebly site with POS and commercial tie-in. Original developer's work is still in place, but rerouted for basic functionality late 2021. **Weebly**. <https://www.barefacedesthetic.com/>

React Colors – a custom color palette creator which allows the user to create a palette of their choosing from a color wheel. Node.js, React, Material-UI, chroma-js, emoji-mart, rc-slider. **MERN Stack**. <https://cpmsp.github.io/reactColors>

YelpCamp – a full stack campsite 'Yelp clone' with reviews and comments. EJS, MongoDB, Node.js, Bootstrap, Passport.js, deployed on Heroku. **MEN Stack**. <https://morning-dusk-93596.herokuapp.com>

Calculator – a simple calculator app which takes two inputs and gives a result. HTML, CSS, JS, DOM Manipulation. **Vanilla JS**. <https://cpmsp.github.io/calculator>

## Education

North Hennepin Community College | AA, focus on business and psychology | Brooklyn Park, MN | Graduated Dec 2007
